

Curriculum Information

English: National Curriculum of England

The aims of the curriculum is to promote high standards of language and literacy by equipping pupils with a strong command of the spoken and written word, and to develop their love for English through reading, discussions and presentations.

PrepWorks Academy engages students in interactive classrooms where all students have an equal opportunity to participate and share their ideas, growing confidence in their English abilities.

Maths: National Curriculum of England

The aims of the Maths Curriculum are: for students to acquire and apply mathematical concepts for everyday use; develop a mathematical approach to problem solving through thinking, reasoning, communication, application and metacognitive skills; and develop positive attitudes towards Mathematics.

PrepWorks Academy strives to merge the UK Maths Curriculum with technology, a hands-on approach and worksheets for better understanding and mastery of mathematical concepts. We recognize that students work and think differently as 21st century learners who are digital natives.

Science: National Curriculum of England

The aims of the Science curriculum are to: provide students with basic scientific terms and concepts to help them understand themselves and the world around them; provide students with opportunities to develop skills, thought processes and attitudes for scientific inquiry; and encourage students to evaluate, analyse and problem solve using scientific knowledge.

PrepWorks Academy aims to develop curiosity and a love for scientific inquiry to encourage students to think scientifically, discuss and learn scientific concepts through seeing science in action through the world around them.
